Kangar gets extra RM78m for 500 PPR homes

KANGAR: Prime Minister Datuk Seri Najib yesterday announced a RM78 million allocation to build 500 homes under the People's Housing Project (PPR) in the parliamentary constituency here.

The project was in addition to eight others in the state, involving more than RM300 million in allocations.

He said the Federal Government was able to announce the new project because of the country's strong economic growth and financial performance.

"The country's finances are getting stronger, and with that, government revenue is also growing. This is why I am announcing this additional project to build 500 PPR homes in Kangar with an allocation of RM78 million.

"With this project, all three parliamentary constituencies in Perlis will have their own PPR homes," Najib said at the opening of the Perlis Urban Transformation Centre (UTC) and a gathering with civil servants here yesterday.
