

MIPFM urges KPKT to study impact of flat rate maintenance fee

THE EDGE MARKETS | October 16, 2019 00:39 am +08

PETALING JAYA (Oct 15): The Malaysian Institute of Property and Facility Managers (MIPFM) foresees various problems arising from the implementation of a recent court ruling for a flat rate maintenance fee for mixed-use properties.

"It may cause chaotic situations for property management. For one, the number of defaulters might start to rise," said MIPFM president Adzman Shah Mohd Ariffin at a media conference today. — *EdgeProp.my*
