## ADIB CASE: COPS SEEK MEDICAL COUNCIL'S AID

POLICE are seeking the assistance of medical experts to facilitate investigation into the murder case of firefighter Muhammad Adib Mohd Kassim, said CID director Huzir Mohamed.

According to *Malaysiakini*, Huzir said police made a request to the Malaysian Medical Council (MMC) about the victim's post-mortem report.

"We have sought MMC for their view on the specialist's post-mortem report.

"We are still waiting for their answer, if they have any comment on it," Huzir told a press conference at the Selangor police headquarters in Shah Alam yesterday.

On why the police are consulting with the MMC after the Shah Alam coroner's court deliberated on Adib's cause of death, Huzir said they needed expert advice as there were differing views on the incident.
